

Drain Rings Clean Continuously

Epa registered - OR - Certified Green

Time-release, non-dissolving treatments for consistent and continuous cleaning of sanitary drains. Prevents buildup, clogging, and odor causing bacteria.

Drain Rings are a time-release± polymer matrix that stores cleaning agents in its pores.

When water contacts the surface, Drain Ring releases its specialized cleaning agents, effectively treating drains. Drain Ring conforms to the drain opening to treat water as it enters.

- ✓ Conforms to the drain
- ✓ Fits 6 to 8 inch drains (4" also available)
- ✓ Easy to use
- ✓ Non-dissolving
- ✓ Fragrance Free
- ✓ No residue left behind
- ✓ Typically lasts 30 days, dependant on water volume.

Next Gen

- Continual Cleaning
- Snug fit with added foam spacer.
- Reinforced plastic strip prevents breakdown
- Buoyancy: Increased surface contact.

High Volume

Designed for areas with high water volume
Cleaning Power: for high-volume areas
Fit: Ring shape, designed to fit 6-8" drains.

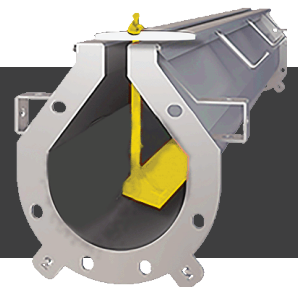

EPA Registered Drain Rings
