

Eliminate Dirty Pans and Overflows

Certified Green Drain Pan Treatment

PanGuard offers a hassle-free solution for maintaining clean drain pans and lines. Simply place the strip in the drain pan, and the non-dissolving polymer core will activate upon contact with water, gradually releasing powerful cleaning agents to prevent buildup, clogging, and overflows.'

- Prevents buildup, clogging, and overflows
- Non-dissolving polymer core
- Trusted for 40 years
- Time-release technology
- Continuous cleaning

Continual Cleaning Action with:

- Superior Cleaning Agents: Effectively cleans and maintains drain pans.
- Dispersants: Breaks up and removes dirt and grime.
- Wetting Agents: Penetrates deep into deposits for thorough cleaning.
- Corrosion Inhibitor: Protects against galvanizing and extends the life of equipment.

Certified Green:
